## The Amazing World of Bugs

Description	Bugs help us in lots of cool ways. Explore the world of bugs and learn more about these little creatures that do so much.
Pathway	This event will complete the <b>Bugs Brownie Legacy: Naturalist Skill-Building Badge</b> from the <i>Brownie – The Girl's Guide to Girl Scouting</i> handbook.
Cost	\$15 per girl
Min/Max	10/20
Location	Greensboro Children's Museum
Duration	2 hours
Program Level	Brownie Program

**Brownie BUGS Badge Requirements:** (Must complete one activity from each of the 5 steps.)

**Step 1: Draw a bug poster.** Use one choice to help you find out more about one kind of bug. Then draw a poster of your bug. Label its parts and answer the questions in the box. When it's done, share your poster with your brownie friends.

- Talk to a bug specialist in your town or community.

AND/OR

- Read a book or watch a video about your bug.

**Step 2: Try a bug craft.** There are lots of "buggy" things you can make. Try making your own colorful or silly or sparkly bug!

- Make your own butterfly.

**Step 3: See bugs in action.** Even though most bugs don't live very long lives, they are very busy!

- Watch three bugs. Identify the bugs and try to find out what they are doing and why!

**Step 4: Explore bug homes.** It isn't just the bugs that are cool. The places they live are fun to explore, too! Find out more about bug homes in this step.

- Draw a cocoon.

**Step 5: Take a bug field trip.** The best place to view creepy critters is outside where they live! Take a trip to get up-close with your bug friends.

- Visit a farm. Farms have lots of animals and crops, so they can be a great place to see bugs. Ask a farmer why bugs can be useful to crops, and what their favorite bug on the farm is.

**Call Stephanie Ashton at 336.574.2898 ext 320 to schedule your group.**
